

IN BUSY TIMES you must strike because the iron is hot. In dull times you must advertise to keep the iron hot. "The time to advertise is all the time," as a successful business man has said. Advertising means trade secured.

DO NOT WAIT until next month, or next Spring, or next Fall to begin your advertising. Begin to-day. While you are waiting, some other store is advertising and getting the trade that should be yours.

E. B. Monday, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia nervous diseases, kidney troubles, female complaints; gives perfect health. LOUIS O'NEIL MELLINGER.

BRIGHT YOUNG MAN.

Prof. Louis O'Neil Mellinger, an Instructor at Princeton University.

Prof. Louis O'Neil Mellinger, C. E., left his home in this place Monday for Princeton, N. J., where he will take up the difficult work as instructor in the Scientific Department of the Princeton University, being selected from the graduating class of 1901 by the Faculty for that position. From the many positions offered him, Prof. Mellinger selected this one as being best adapted to the line of work he has taken up.

A short sketch of Prof. Mellinger's life will be of interest to many of our readers. He was born in Butler county, Pa., in 1877, shortly afterward his parents moved to Boston, Armstrong county, where his early youth was spent. Came to Reynoldsville in 1886, and it was here Louis received his early education. After completing the course in the public schools of Reynoldsville,

he went to Kiskiminitas Springs schools, where he prepared himself for Princeton, which institution he entered in the fall of 1898. He graduated this summer from the Scientific Department, sharing first honors in his class and received the degree of C. E.

Taking a great interest in all college affairs he became very proficient in many things, particularly among them being athletic and literary work. He has also shown noticeable signs of genius in his art work sketches and plates being placed on exhibition at Princeton. It was at Kiskiminitas that he first showed indications of remarkable musical ability, which was later fully developed at Princeton, where he sang second bass in the famous Olympi Quartette, whose concert work has always been received kindly.

Princeton has been wise in their choice of instructor. Being a most brilliant and influential speaker, with a thorough knowledge of what he teaches, his success is assured.

Tour to the Pacific Coast.

In view of the great popularity of transcontinental travel under the Personally-Conducted System, as evinced in the recent Pennsylvania Railroad Tour to the Pacific Coast and Canadian Northwest, that company has decided to run another tour to the Pacific Coast, including in the itinerary a visit to the world-famous Grand Canon of Arizona, in the early fall. The tour will leave New York, Philadelphia, Baltimore, Washington, and other stations on the Pennsylvania Railroad east of Pittsburgh, on Monday, September 23, and reach New York on the homeward trip Tuesday, October 22.

As in former tours to California under the auspices of the Pennsylvania Railroad, a special train, composed of the highest class of Pullman equipment, will be utilized during the entire trip. Excellent meals will be served in the dining cars attached to the train during the entire journey, except during the stops at San Francisco and in Chicago. An observation car will appeal to all who delight in scenery. Few trips afford so great a diversity in Nature's beauties as the one outlined below. Westward bound, the tourists will pass through the wild slopes of the Colorado Rockies, around the Great Salt Lake, and over the fastnesses of the Sierra Nevada. After visiting all the beautiful resorts on the sunny California slopes, the eastward journey will be through the Arizona desert to the Grand Canon of Arizona. Its beauties cannot be painted in mere words. Magnificent in coloring, awful in its depths, it stands among the natural wonders of the world. Thence across the plains to St. Louis, and eastward through Illinois, Indiana, Ohio, and Pennsylvania, the tourists reach their destination just thirty days after leaving home.

The various transcontinental lines having made low rates on account of the General Triennial Convention of the Protestant Episcopal Church, the Pennsylvania Railroad Company is enabled to offer this superb vacation trip at the low rate of \$185 for the round trip from New York, Philadelphia, Baltimore, Washington, or any point on Pennsylvania Railroad east of Pittsburgh, one in a berth; and \$165 for the round trip, two persons occupying the same berth. The rate from Pittsburgh will be \$5 less.

Diagrams are now open, and as the number who can be accommodated will be strictly limited, names should be registered immediately.

For further information and descriptive pamphlet, apply to George W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.
